The Laurel Museum's Newest Video: Made for Kids by Kids!!!

Our Junior Docent program is full of promising young community members who like to contribute to the LHS with their time and efforts. These Junior Docents are often the people you see helping out at our Children's Programs, but they do many things to help the Museum.

This past summer, they spent every Wednesday at the Museum doing research on Laurel's history. They learned all about how the town of Laurel's early development was tied into the Laurel Mill.

Based on what they learned, they created a short video telling about the history of the Mill.

The video was made for kids by kids and tells a lot about the history of Laurel!

You can find the video on YouTube here: <http://www.youtube.com/watch?v=FiQeDMHnBYM>

The video is also available for classroom use and group use!

If you're interested in learning more about the Junior Docent program and how your child might get involved, contact us at director@laurelhistoricalsociety.org

Spring Back in Time A Success!

What do you get when you combine 40 children, a bright sunny day, and some old-fashioned fun?

A day at the Laurel Museum.

Thank you to all who joined us for our Spring Back in Time Event!
